

Find Competitors or Suppliers

You need to know:

- What is the competitive landscape within an area?
- Which of my competitors do my buyers source from?
- Which competitors are drawing talent from my business?

What we can do:

- Provide maps of industry businesses within a certain area that you may compete with
- Identify which area businesses are fulfilling local supply needs
- Provide competitor information, such as company size, management profile, geographic location, offerings/products/services, pricing, distribution and more
- Identify which businesses are hiring employees that left your company and provide their company information
